

STANDARD INCLUSIONS FOR PCC-30 HLI CONTROLLER

Binary Inputs

On/off remote switch
Fan fault
Compressor fault
Filter Switch
Fan Run Status

Analogue Inputs

Ambient temperature and humidity
Cold duct sensor
Supply air sensor temperature and humidity
Room sensor (temperature and humidity if required)

Analogue Outputs

Compressor Capacity control
Economy damper control for the XEP Units if required.
Fan control if required via pressure sensor or through controller.

Binary Outputs

Fan on/off for fixed speed (set from speed pots)
Compressor enable/disable
Heat enable/disable.
